

GUARDIANTM

RINK & RECREATION SYSTEMS by HUMANE

GUARDIANTM Rink System Mats are featured in 25 of 30 NHL arenas

GUARDIANTM Rink Systems are an industry standard for rinks around the country. We were the first company to utilize a non-adhering interlocking system and rink managers, developers, and builders choose GUARDIANTM Systems every day.

GUARDIANTM Flooring Systems may be used in wall to wall installations or as a stand alone solution within a facility. Due to the interlocking system our flooring is able to stabilize itself away from walls and is offered in 3/8", 1/2" and 3/4" thicknesses to allow for varied levels of use.

Many facility developers and architects choose GUARDIANTM Systems because our design staff can layout the area utilizing CAD software in order to precut the flooring to your dimensions. This dramatically reduces the time spent on installation and the amount of scrap created.

"THE HUMANE ADVANTAGE"

Proven Technology-

Loose Lay product which requires no adhesive

High Quality Recycled Buffings (No Crumb Rubber)

"Clean and Fresh" Mitigating agent used to reduce aroma

3 times stronger than rolled rubber (800 PSI per ASTM412)

Easy Installation with custom design and precutting services

Absolutely Non- Absorbent & will not harbor or promote bacterial growth

EASYPATH

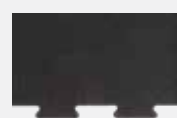

Beveled edges are molded into the mat, allowing for smooth transitions without the need for additional products or installation

BIGLOK

3x bigger system for extreme usage Available as a custom solution in 3/4" size

LOKTUFF

The original Interlock System Built to last

TreadSafe

Our diamond patterned texture provides maximum traction in wet and dry conditions
