

HUMANE
EQUINE PRODUCTS GROUP

Thoroughbred Horses

Foaling Barns ♦ Mare Barns ♦ Stud Barns

Ease of care and horse safety

Our mats are guaranteed never to roll, buckle or curl causing less stress on leg joints and tendons with no loss of hair. Virtually stops subsurface digging.

Healthy environment

Our vulcanization process guarantees a product that is anti-fungal anti-bacterial and non-porous providing a safe comfortable environment.

Special area stability

Our diamond surface design ensures stability and traction during live breeding, foaling stalls, and in surgical recovery stalls. Area customization is available.

Longevity and lower bedding costs

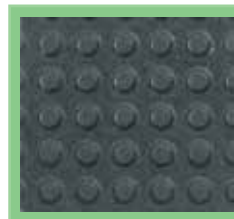

Our recycled mats are made from high quality rubber and will provide years of use and backed by an extended limited warranty. Reduces clean up time and bedding costs.

Team of experts

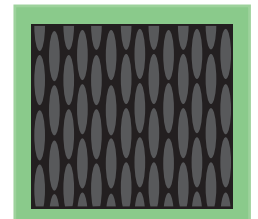

Our team of experts, with more than 50 years of experience, continues to work on finding solutions to provide safety and protection for your valuable thoroughbreds. We are experts in customization.
